KEYSCAN INTEGRATION

Salient and Keyscan have joined forces to create a powerful, integrated access control and video surveillance system that combines the two technologies for a complete security solution. By adding CompleteView™ to your existing or planned Aurora Keyscan Access Control system, you can enjoy all of the power of VMS application through Aurora Keyscan. With a comprehensive set of fully integrated video and access control security features, the Aurora Keyscan System and CompleteView VMS solution provides actionable information with live viewing and playback features, advanced PTZ control, as well as email notification capabilities for a faster response to security incidents.

With CompleteView you can do the following on your Aurora Keyscan system:
- Display cameras from the video system
- Play back recorded video associated with a specific alarm from CompleteView with full play back control (play, stop, pause, frame by frame)

FEATURES

View and manage cameras from multiple NVR's simultaneously

View live video from Aurora Keyscan

Recorded video is automatically associated to alarm events

Video playback for management of alarms and events

Respond to video motion detection alarms with live camera view on demand (with CompleteView Spotlight)

CompleteView provides a true video surveillance system with capabilities, such as logical camera grouping, email or text alerts, flexible FPS settings and web browser support

Fully scalable
