

# COMPLETEVIEW 20/20 REMOTE CERTIFICATION TRAINING

Salient, a leader of video management systems, is offering instructor-led, remote certification training. This innovative training allows individual students to participate in classroom training from their own home or office location. Each student will access a Salient Lab Computer through web conferencing (remote classroom) and learn to install and configure the entire suite of CompleteView Enterprise applications. The training will be interactive with access to live IP cameras, with hands-on experience, resulting in a fully functional CompleteView system that records and plays back video.

**To ensure a successful training, students must meet the minimum Technical and Learning Environment Requirements before registering.**

- Upon successful completion, students earn CompleteView certification valid for 2 years
- Time required: 12 hours over two days
- Price: \$325
- Scheduled breaks provided during the day, including 30 minutes for lunch

## Requirements to be completed 24 hours in advance of class:
