

GUARDSTATION QUAD

Salient's Quad monitor GuardStation client workstation provides top performance for demanding security control room deployments. Designed for CompleteView 20/20 VMS, the GuardStation client systems provides the tools and capability to view live video, perform investigations and export evidence to a variety of media.

This innovative client workstation is designed to provide the highest performance for client applications in Salient's VMS without the need for high capacity server processing. GuardStation is pre-loaded with CompleteView 20/20 client software and ViewPoint screen monitoring software. Supporting quad monitor configuration in a desktop form factor, GuardStation offers flexibility and high performance in one location.

OVERVIEW **GuardStation Quad**

CPU	Intel Core i3
